REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate or render obvious the claimed reactive blue dye of the formula (1) or the claimed process for the preparation thereof. The dye that is closest in structure to the claimed dyes is Dye (C) shown on page 10 of the specification. This dye differs from the claimed dyes in that it has a β -sulfatoethylsulfonyl group instead of the vinylsulfonyl group. The comparative data on pages 10 to 12 shows that the claimed dye has superior dyeing efficiency and light fastness as compared to Dye (C).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
